		<i>All: this match was a HM match but it turned into a shoot whatever you like match for many so the overall scoring is tough to impossible . The folks who I can remember shot HM for the entire match are listed first in order of finish . Every one else: your times are for you to look at and hopefully you can remember what combination of guns you shot on that stage. I had a great day. Thank you all for coming and being willing to try new shooting challenges. Best regards, Ron Mengel</i>
